South Districts

Decisions and actions taken – 05/09/2020

Ministry of Public Health

The Ministry of Public Health issued a reminder statement of the procedures that must be adopted for contacts of positive cases infected with COVID-19, according to the following:

When a positive case is registered, the person in contact with this case is immediately quarantined for a period of 14 days, bearing in mind that the contact is the person who was with the injured during the 14-day period preceding the registration of the infection for a period of not less than ten minutes and a distance of a maximum of one meter.

The contact quarantine is imperative and necessary, and the examination is more important. The examination may come negative at the beginning without meaning that there is no infection, because this infection may be confirmed after a few days during the incubation period, which extends between two and fourteen days.

The highest percentage in the detection of positive cases of contacts ranges between five (5) and seven (7) days after the last contact with the positive case, so this period is considered the best for conducting the examination and returning it if the need arises.

Emphasizing repeatedly that a negative examination does not mean that the contacts are free of the disease and may turn into positive during the incubation period. Therefore, strict adherence to the stone is an essential factor to limit the transmission of the disease.

The Ministry issued the results of additional examinations for the upcoming trips on 2 and 3 September 2020, where three new positive cases were recorded, and they were distributed as follows

Arriving from	Company	Flight Number	Number of Positive Cases
02/09/2020			
Istanbul	MEA	266	1
03/09/2020			
Istanbul	MEA	266	1

General announcements

On 8/31/2020, the National Committee for Follow-up of Preventive Measures and Measures to Confront the New Coronavirus issued the following recommendations based on an assessment of the reality of the epidemic:

- Activating the mechanism approved between the Ministry of Public Health and the Lebanese Red Cross to distribute and transfer suspected cases of Coronavirus to governmental and private hospitals through the call center established in the Ministry of Health, provided that the Red Cross is provided with daily regulations about the hospital occupancy rate.
- Activating the work of the electronic platform IMPACT at the Ministry of Interior and Municipalities to monitor the situation of those infected with Coronavirus.
- Reopening amusement centers with an occupancy rate of 50% only, while adhering to the highest preventive measures
- Reopening the external wedding gardens only, subject to obtaining approval from the Ministry of Interior and Municipalities, and monitoring by the municipal police, provided that the occupancy rate does not exceed 50%.
- Conducting an analytical statistical study of the spread of the Coronavirus, in cooperation with the Ministry of Communications and the Lebanese University.

Note: The decisions can be found at www.drm.pcm.gov.lb

Examples of lack of adherence to safety measures

- The tourist officer at the Ministry of Tourism wrote a report of seizure against the Ballroom Foundation and Nightclub, which are located in the Jounieh Haret Sakher area, the Analogue Club in Ashrafieh, the MOOD Club in Broumana and the Mr. Dollar in Zouk, due to the violation of General Mobilization Resolution No. 1032/2020, failure to comply with preventive measures, and the permitted number of customers, which were sealed with red wax.
- Demand gatherings and demonstrations.
- Failure to comply with the preventive measures and procedures required in a number of stores and markets (putting on a muzzle or face mask, sterilizing hands, maintaining a safe distance).
- Gatherings for social events.
- Failure of those in contact with confirmed cases to adhere to home isolation procedures until the results of the laboratory tests are issued.

If you feel any symptoms, call directly the hotline of the Ministry of Public Health: 1214 or 01/594459
