## Decisions and actions taken during the past 48 hours

### Ministry of Public Health

The Minister of Public Health continued the raid and investigation operations, which included three warehouses for medical supplies, laboratory reagents, and implants, considering that everyone is responsible for the patient's health, and that it is the duty of the Ministry, the Bank of Lebanon, and all companies and health sectors to ensure the patient's health, and that the matter needs follow-up, transparency, and a courageous decision by everyone.

The Minister of Public Health reopened the National Program Center to Combat Tuberculosis and AIDS Patients in Karenina, which was restored by UNHABITAT after it was badly damaged in the harbor explosion on August 4, in cooperation with the Swedish International Development Cooperation Agency, Beirut Municipality and the Lebanese Center for Energy Conservation.

The Ministry of Health seeks to control the prices of medical supplies and reduce inflated bills from the importer to the hospital to the doctor, through a work mechanism based on specific administrative and financial measures.
