Decisions and actions taken during the past 48 hours

Ministry of Public Health

The Minister of Public Health wished citizens to take all measures to prevent the Coronavirus, especially after opening the country in order not to open the way for a new wave of the virus, indicating that what is happening today is a gradual escape from the procedures and this is a risk, as he warned citizens to repeat the July 2020 scenario

The Minister of Public Health announced that the marathon that will be organized next Saturday will be open for vaccination with AstraZeneca in centers designated for this vaccine in various regions, subject to prior registration on the official platform for the vaccine. This marathon will be held only on Saturday for those over thirty years old, hoping that the response will be especially in the governorates that witness a low turnout for registration.

The Minister of Public Health announced that communications began with the State of Qatar to provide a donation of the Pfizer vaccine in the last quarter of the year, and that the Kuwaiti Red Crescent presented five hundred thousand dollars as a donation to buy Pfizer's vaccines, and expressed his satisfaction with the continuation of the positive epidemiological indicators compared to the months of February and March last year.

The Minister of Public Health, in the presence of the President of the Civil Service Council, the President of the Lebanese University and the Dean of the Faculty of Sciences, launched the vaccination campaign for public sector employees at the Lebanese University - Hadath.

The Ministry of Public Health reported that PCR examinations had been completed on flights that arrived in Beirut and were performed at the airport on May 22; The results showed that there were twelve (12) positive cases, which were distributed over the following flights:

The following recommendations were issued by the meeting of the Committee for Follow-up of Preventive Measures and Procedures for Coronavirus on 5/20/2021:

1. Expatriates from Brazil have the obligation to have a PCR test that has a negative result 96 hours before the date of travel to Lebanon, provided that the expatriate undergoes another examination at Rafic Hariri International Airport and adheres to the quarantine for a period of 4 nights / 5 days in one of the hotels specified by the Ministry of Tourism. During this period, he is subjected to a PCR examination and is required to quarantine if the result is positive.
2. Excluding national and foreign diplomatic missions from the procedure for the hotel quarantine, provided that they adhere to quarantine for a period of 5 days at their residence. Those coming from Brazil to Lebanon and those who have received the second dose of the vaccine for a period of two weeks are also excluded according to an official document proving that.
3. Postponing the elections for all trade unions in Lebanon for a period of 4 weeks until the epidemiological reality is stabilized, provided that the unions motivate those in charge of organizing the elections to receive the necessary vaccinations during this period, especially as they become available to the age group over forty years old and take place in open places at the time.
4. Permitting the reopening of cinemas and theaters until the eleventh hour at night within 50% of their capacity, while adhering to all preventive measures and measures from the Coronavirus.
5. Amending the timing of opening restaurants with closed lounges until the eleventh hour at night, provided that the Ministry of Tourism determines the classification of restaurant halls (closed or open), and permits the reopening of restaurants established on the roofs of buildings (ROOF TOP) until 12:30 at night.
6. Allow the holding of all events (weddings, conferences, exhibitions ...) within open spaces, provided that the number of attendees does not exceed 100 persons and 50% of its capacity.
7. The Ministry of Tourism to strictly control the tourism sectors under its authority, to ensure that it adheres to all obligations and preventive measures against the Coronavirus, and to take the necessary administrative measures against the violator, leading to closing it with red wax for a period of at least five days.

In implementation of Decision No. 96 / M on 6/2/2021 related to updating the strategy to confront the Coronavirus and the stages of gradual easing of the closure restrictions, the National Operations Room for Disaster Management issued a statement on 5/21/2021 about the additional sectors covered by the reopening, the permanence, and the conditions of their work in accordance with to the following:

Sector	Timing		Notes
Popular markets	5.00	21.00	It is mandatory to wear the muzzle for all vendors and pioneers.
The spaces for children's games within the commercial complexes	9.00	21.00	Capacity of one child / 16 square meters, with a mandatory mask for those over two years old
Cinemas and theaters	8.00	23.00	By 50% of its carrying capacity.
Occasions (weddings, conferences, exhibitions)	8.00	0.30	Within open spaces, provided that the number of attendees does not exceed 100 persons and 50% of its capacity.

Note: The full text of the decision can be found on the website <http://drm.pcm.gov.lb>

Examples of lack of adherence to safety measures

- Overcrowding in foodstuff stores, failure to organize roles on payment boxes, failure to respect the safe distance between customers, and the obligation to wear masks.
- Overcrowding inside banks and gatherings in front of cash withdrawal machines and money transfer offices.
