Based on the national plan for the COVID-19 vaccine, which aims to vaccinate non-Lebanese Lebanese citizens and residents on Lebanese soil to limit the spread of the epidemic and the number of infected people, the Ministry of Labor asked employers of Lebanese and foreign residents to educate and encourage their domestic service workers, on the necessity of receiving the COVID-19 vaccine, to ensure their safety and the safety of those around them. The Ministry of Labor also recommended that the names of workers, the subject of this circular, be included on the registration platform for the anti-virus vaccine, and it asked employers to contribute to this process in order to achieve community immunity and mitigate the health, social and economic impacts of this virus.

The meeting of the Committee for Follow-up of Preventive Measures and Procedures for Coronavirus on April 14, 2021 issued the following recommendations:
