The following recommendations were issued by the meeting of the Committee for Follow-up of Preventive Measures and Procedures for Coronavirus on 5/20/2021:

Expatriates from Brazil have the obligation to have a PCR test that has a negative result 96 hours before the date of travel to Lebanon, provided that the expatriate undergoes another examination at Rafic Hariri International Airport and adheres to the quarantine for a period of 4 nights / 5 days in one of the hotels specified by the Ministry of Tourism During this period, he is subjected to a PCR examination and is required to quarantine if the result is positive.
- 2. Excluding national and foreign diplomatic missions from the procedure for the hotel quarantine, provided that they adhere to quarantine for a period of 5 days at their residence. Those coming from Brazil to Lebanon and those who have received the second dose of the vaccine for a period of two weeks are also excluded according to an official document proving that.
- 3. Postponing the elections for all trade unions in Lebanon for a period of 4 weeks until the epidemiological reality is stabilized, provided that the unions motivate those in charge of organizing the elections to receive the necessary vaccinations during this period, especially as they become available to the age group over forty years old and take place in open places at the time.
