## The National Awareness Campaign to register on the Coronavirus Vaccine Platform

### Does the COVID-19 vaccine provide protection against the New Delta Variant?

Studies show that in countries where the variant is spread, unvaccinated populations are more likely to be hospitalized after infection. **Two doses of the vaccine should be administered to provide protection from the Delta Variant.**

### What is the Delta Variant?

It is a variant of the COVID-19 virus and the fastest spreading one. Till 9 July 2021, it has been found in 98 countries at least and is spreading rapidly among unvaccinated populations.

### How can we protect ourselves from the Delta Variant?

Take the full course of vaccination to achieve full protection.

Abide by all preventive measures (safe distancing, mask wearing, hand hygiene)

### Ministry of Public Health

The Minister of Public Health held a meeting to track cases infected with Covid-19 in light of the lack of securing all medical supplies as a result of the financial situation, in the presence of representatives of UNICEF, World Health, the Lebanese Red Cross, the Syndicate of Social Work Specialists, NGOs and a number of major municipalities, and it was agreed upon. To form a working group that secures information exchange and networking with NGOs active in the health field to support the infected cases who are unable to secure the medical, health and nutritional supplies they need, in addition to psychological and social support.

The Ministry of Public Health reported the completion of PCR tests for flights that arrived in Beirut and were conducted at the airport between August 10 and 13, where the results showed the presence of one hundred and sixteen (116) positive cases, distributed among the following flights:
