Decisions and actions taken -16/03/2021

Ministry of Public Health

The Minister of Public Health issued a decision regarding the issuance of an official vaccination document for the inoculated persons outside the national plan, from those who received the first dose outside Lebanon and brought the second dose of the vaccine with them, or who received vaccines through private initiatives. The decision stipulated the necessity for these individuals to undergo an immunization examination two weeks after completing the second dose of the vaccine and obtain an official document in a laboratory accredited on or outside the Lebanese territory to prove the result of this examination, in addition to an official medical report signed and stamped with the seal of a doctor registered in one of the two Lebanese Doctors Syndicates.

The Ministry of Public Health announced that it does not object to the private import of the vaccine in appropriate conditions that guarantee its quality, with the need to coordinate with the Ministry in order to accompany and document.

The Ministry of Public Health has provided in-kind assistance to the municipality of Brital and the Union of Municipalities south of Baalbek, including 5 oxygen devices, rations of medicines, masks and sterilizers. Masks and sterilizers

The Ministry of Public Health announced that it has granted more than thirty private companies that have good storage and distribution conditions, formal approval to negotiate the import of the vaccine commissioned by the Ministry, noting that a number of vaccine manufacturers (such as Pfizer and AstraZeneca) only sell to governments. While private contracting with other companies that have obtained emergency use permission (Sinopharm and Sputnik) takes time. The Ministry also affirmed that its endeavor to manage the initiative of associations and the private sector to import the vaccine aims to ensure quality and achieve community immunity as quickly as possible and document it on the platform. As for the strict commitment to free vaccination, the Ministry works according to what is applied in various countries of the world, as private initiatives are in solidarity with the official authorities to confront the pandemic
