Ministry of Public Health

- The Minister of Public Health signed the final contract with Pfizer to secure more than two million and one hundred thousand vaccines that arrive gradually starting from the beginning of February, and this contract is added to the agreement signed last October with the global platform Kovacs sponsored by the World Health Organization to secure two million seven hundred thousand vaccine from multiple international companies will arrive in Lebanon, respectively. The minister confirmed cooperation with the private sector to secure two million vaccines from Astrazeneca and Sinopharm, starting next February.

- The Ministry of Public Health stated that in March and April 2020 it launched a bid to buy ventilators through two public tenders, the details of which were published on the ministry's website, with the aim of ensuring transparency in the process of purchasing these devices, which the ministry has been keen since that time to secure in recognition of the urgent need for it. The artificial respirators in the Sports City are a gift provided by the State of Qatar, which is fifty and not five hundred, and their installation will begin next week with the completion of the first phase of the field hospital's installation and operation in Sir Al-Danniyeh.

- The Ministry reminded its commitment to the specific standards stipulated in Resolution 455/1, which regulates the introduction and use of medical materials in Lebanon, and which stipulates in its most prominent articles that the materials must be obtained through a certificate from the Industrial Research Institute. Accordingly, the Ministry cannot complete the purchase of devices under the slogan of encouraging the Lebanese industry, if these devices do not possess the aforementioned certificate that guarantees the quality of medical materials for their safe use in treating patients.
