- Caretaker Prime Minister Hassan Diab chaired a meeting of the ministerial committee to follow up on the Corona epidemic on 02/19/2021, where a mechanism was discussed, approved by the ministerial committee, aimed at immunizing employees from infection with the Corona epidemic.

- The Committee for the Follow-up of Preventive Measures and Measures of the Coronavirus held a meeting on 19/02/2019 headed by the Secretary-General of the Supreme Council for Defense Major General Mahmoud Al-Asmar, where health and hospital data, the reality of the epidemic spread and the results of the first phase of the plan to reopen the economic sectors were evaluated. They dealt with the two health protocols established by the Federation of Chambers of Commerce, Industry and Agriculture in Lebanon and the delegation of the Supreme Syndicate of Beauty Salon Owners, where they demanded to reopen in the second phase, but the Ministry of Public Health emphasized the need to follow the approved opening plan and to keep the sectors mentioned above for the third phase in light of health data. The hospitalization provided, especially in terms of the epidemic spread, which is still at the fourth level of societal prevalence. The Ministry of Economy and Trade also called for the necessity of opening the commercial sectors in compliance with the agreed protocols, in order to prevent the deterioration of the economic conditions and the resulting closure of institutions and the dismissal of workers, especially in light of the inevitability of closing the commercial sector for an additional two weeks.

Based on the foregoing, the recommendations came as follows:

- The committee submitted the above facts to the Ministerial Committee for its review and decision, with an emphasis on the necessity of the commitment of all sectors that will resume work to obtain the permits through the online platform IMPACT
