- The Committee for the Follow-up of Preventive Measures and Measures of the Coronavirus held a meeting on 19/02/2019 headed by the Secretary-General of the Supreme Council for Defense Major General Mahmoud Al-Asmar, where health and hospital data, the reality of the epidemic spread and the results of the first phase of the plan to reopen the economic sectors were evaluated. They dealt with the two health protocols established by the Federation of Chambers of Commerce, Industry and Agriculture in Lebanon and the delegation of the Supreme Syndicate of Beauty Salon Owners, where they demanded to reopen in the second phase, but the Ministry of Public Health emphasized the need to follow the approved opening plan and to keep the sectors mentioned above for the third phase in light of health data. The hospitalization provided, especially in terms of the epidemic spread, which is still at the fourth level of societal prevalence. The Ministry of Economy and Trade also called for the necessity of opening the commercial sectors in compliance with the agreed protocols, in order to prevent the deterioration of the economic conditions and the resulting closure of institutions and the dismissal of workers, especially in light of the inevitability of closing the commercial sector for an additional two weeks.

Based on the foregoing, the recommendations came as follows:

The government declared that Lebanon is at a pivotal moment in the fierce confrontation with the Corona epidemic that kills humanity, indicating that Lebanon is moving today from the fear of the epidemic to the stage of protection through vaccination in preparation for gradually restoring normal life.

Based on the recommendation of the ministerial committee charged with following up on the issue of preventive measures and measures for the Coronavirus in its meeting on 02/05/2021, and based on the necessities of the public interest and safety requirements, the Presidency of the Council of Ministers issued Resolution No. 96 / PM on 6/2/2021 regarding updating The strategy to confront the Corona virus and the stages of gradually easing the closure restrictions, based on the exceptional approval of the President of the Republic and the Prime Minister.
