General Decisions / Announcements

- On 02/21/2021, the Supreme Judicial Council issued a decision related to updating the strategy to confront the Coronavirus, and the most prominent of what was stated in it:

- Continue to suspend the sessions until the morning of 1/3/2021
- Continue to decide on the cases of detainees with a reference from the Public Prosecution offices, in accordance with the circulars issued by the Supreme Judicial Council and the Public Prosecutor for Discrimination
- Continuing to decide on urgent cases in accordance with the circular issued in this regard regarding the orders on petitions
- Ensure the conduct of administrative work in the pens (determining the number of employees, prevention and safety measures)

A statement was issued on 02/21/2021 by the National Operations Room for Disaster Management related to Resolution No. 96 / M of 6/2/2021 related to updating the strategy to confront the Coronavirus and the stages of gradually easing the closure restrictions, which defined the sectors included in the second phase, which begins on 02/22 / 2021 and the continuity of its operation and the mechanism of permissions

- The Committee for the Follow-up of Preventive Measures and Measures of the Coronavirus held a meeting on 19/02/2019 headed by the Secretary-General of the Supreme Council for Defense Major General Mahmoud Al-Asmar, where health and hospital data, the reality of the epidemic spread and the results of the first phase of the plan to reopen the economic sectors were evaluated. They dealt with the two health protocols established by the Federation of Chambers of Commerce, Industry and Agriculture in Lebanon and the delegation of the Supreme Syndicate of Beauty Salon Owners, where they demanded to reopen in the second phase, but the Ministry of Public Health emphasized the need to follow the approved opening plan and to keep the sectors mentioned above for the third phase in light of health data. The hospitalization provided, especially in terms of the epidemic spread, which is still at the fourth level of societal prevalence. The Ministry of Economy and Trade also called for the necessity of opening the commercial sectors in compliance with the agreed protocols, in order to prevent the deterioration of the economic conditions and the resulting closure of institutions and the dismissal of workers, especially in light of the inevitability of closing the commercial sector for an additional two weeks.

Based on the foregoing, the recommendations came as follows:

- The committee submitted the above facts to the Ministerial Committee for its review and decision, with an emphasis on the necessity of the commitment of all sectors that will resume work to obtain the permits through the online platform IMPACT
- The committee recommended the adoption of the MA3AN application prepared by the Ministry of Public Health to limit the spread of the epidemic
