Decisions and actions taken - 25/02/2021

Ministry of Public Health

The Minister of Public Health met with the officials of the approved vaccination centers and stressed the commitment of the plan and announced the postponement of the accreditation of the Baalbek and Batroun hospitals due to their violation of the controls

The Minister of Public Health spoke on television about the following matters:

It is regrettable that the divisions in Lebanon have disturbed a national achievement that the government has registered in these troubled days. The national vaccination plan is robust, coherent, and responds to the standards of global health references.

The implementation of the national vaccination plan needs great capabilities and groups of volunteers while the capabilities are very limited, and the lowest percentage of waste is recorded starting from the platform in cooperation with the central inspection, which is managed by the national capabilities without any support or funding for field work teams that move between Regions

The sixteen representatives who received the vaccine did not take the role of others, but were registered on the platform, and the vaccination did not come randomly or comprehensively for all. The representatives were among the target groups, in addition to appreciation for their due and responsible role in legislation requiring vaccination. And that the Parliament station is part of the program of mobile campaigns on welfare institutions and official and spiritual headquarters.

There is no international guardianship over the national vaccination plan. Rather, there is coordination with the committee assigned by the World Bank to ensure that the vaccine is prevented from being smuggled, sold, or invested. As for the detailed and applied matters, it is a sovereign decision, and it is the ministry's reference point. If some consider that there is a loophole that occurred by vaccinating MPs, we will take the matter into consideration, and this will relieve the Ministry of much pressure at all levels.

The number of registered so far on the platform is seven hundred thirty thousand (730,000), of whom eighty-eight thousand and seven hundred people (88,700) over the seventy-five years had registered in recent days.

Pfizer, Moderna and AstraZeneca do not sell to the private sector. The Russian Investment Fund requires the private sector to obtain permission from the ministry to negotiate with it, although this fund prefers to complete a direct contract with the Ministry of Public Health, especially since the effective SPUTNIK V vaccine is very sensitive, because it needs to be transferred to a degree of (-18) and after five minutes Whoever defrosts it serves only two hours, so the Ministry of Health must sponsor private sector initiatives, so it remains responsible for transporting, receiving and implementing the vaccine, to ensure its quality and safety.

Twenty private companies obtained the permission of the Ministry to negotiate for the vaccines of Sputnik (thirteen companies) and Cinopharm (seven companies), with the exception of two companies whose request was rejected for their explicit violation of Lebanese law by requesting permission for an exclusive agency

The Ministry of Public Health continues to stop and confront abuses in the health and medical sector, and that the file of medical supplies and implants has become under the custody of the competent judiciary, after the Ministry found that there is clear exploitation and extortion of people in this field.
