## Decisions and actions taken – 26/02/2021

### Ministry of Public Health

The Minister of Public Health met with the officials of the approved vaccination centers and stressed the commitment of the plan and announced the postponement of the accreditation of the Baalbek and Batroun hospitals due to their violation of the controls

The campaign to give the Coronavirus vaccine to the religious references began today, as it started in the Fatwa House in Beirut and the Patriarchate in Bkerke, to be completed tomorrow at the Supreme Islamic Shiite Council, the Greek Orthodox Archdiocese in Beirut, and other religious references

The Minister of Public Health announced that the number of those registered so far on the platform to receive the Coronavirus vaccine is seven hundred thirty thousand (730,000), of whom eighty-eight thousand and seven hundred people (88,700) over the seventy-five years had registered in recent days.

The Minister of Public Health clarified that Pfizer, Moderna and AstraZeneca do not deal with private sector companies and that the Russian Investment Fund requires the private sector to obtain permission from the Ministry to negotiate with it, noting that this fund prefers to conclude a direct contract with the Ministry of Public Health, especially since the effective SPUTNIK V vaccine is effective. Very sensitive, because it needs to be moved to a degree of (-18).

The Minister of Public Health stated that the Ministry is currently negotiating with twenty private companies to obtain Sputnik vaccines (thirteen companies) and Cinopharm (seven companies), with the exception of two companies whose request was rejected for their explicit violation of Lebanese law by requesting permission from an exclusive agency.

The Ministry of Public Health reported that PCR examinations had been completed for flights that arrived in Beirut and were conducted at the airport on dates 21, 22 and 23 February 2021, where forty (40) positive cases were recorded, which were distributed as follows:
