

# Lebanon National Operations Room Daily Report on COVID-19

**Wednesday, November 04, 2020**

**Report #231**

**Time Published: 10:30 PM**

New in the report:

- Amending the names of laboratories recognized by the Ministry of Public Health
- The names of the laboratories that did not specify the district, the place of residence, or the phone number for a number of positive cases, which affects the tracking of cases and identification

## The Online platform to measure the level of risk of the spread of the new Corona virus

This interactive platform allows you to know the level of risk of spreading the kurna virus according to districts, based on the number of cases registered daily and the number of residents in each district. For more information on a daily basis, you can access the following link: <https://bit.ly/DRM-RiskLevelInMunicipalities>

## Online platform to track sector commitment in general mobilization procedures

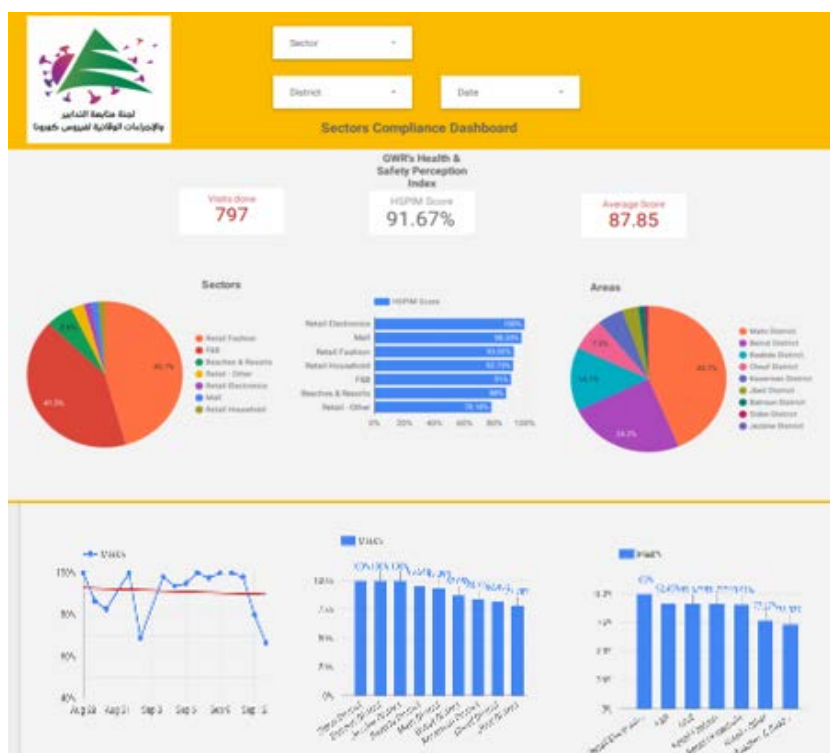

For more information about the isolation centers' distribution and the percentage of their occupancy, enter the following link: <http://bit.ly/DRM-IsolationCentersProfiles>

Note: These centers have been equipped in cooperation between the National Committee for Follow-up of Preventive Measures and Measures to Confront the Coronavirus and Governors and Municipalities, the United Nations Development Program, the World Health Organization, UNICEF, the Ministry of Public Health, the Syndicate of Nurses in Lebanon and the Syndicate of Specialists in Social Work.

---

### Occupancy rate of isolation centers for cases infected with Coronavirus

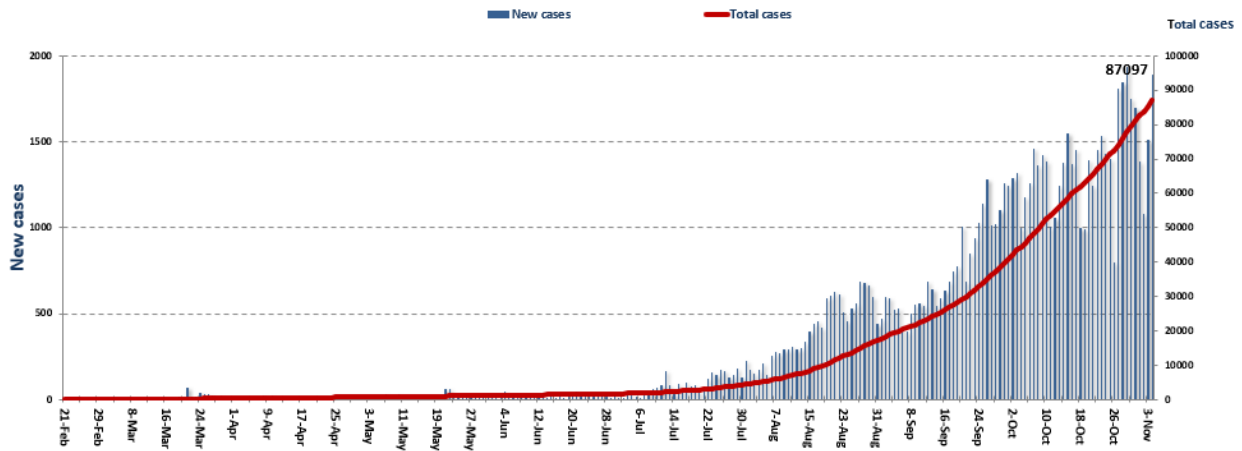

---

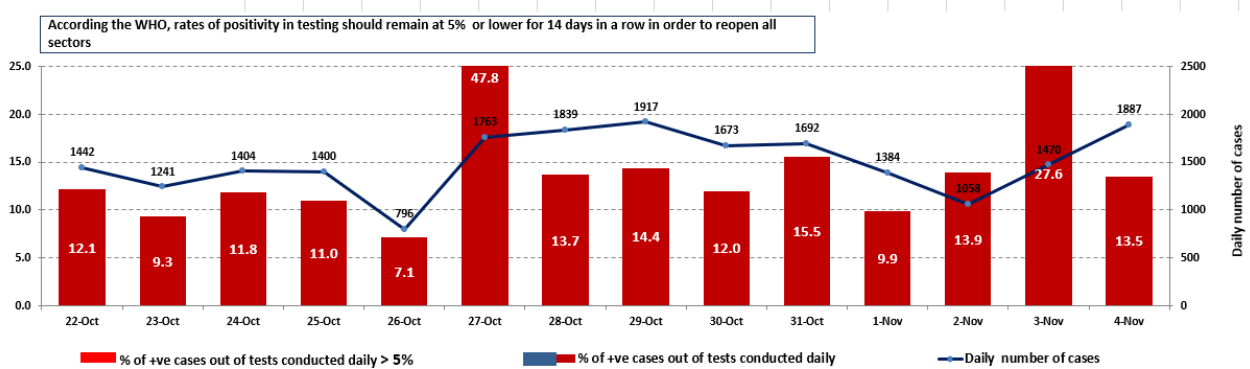

Based on the recommendation issued by the National Committee for Follow-up of Preventive Measures and Measures to Confront the Coronavirus to open all sectors, provided that the general mobilization procedure (safe distance, muzzle, and hand sterilization) be applied, a special electronic platform was created that allows monitoring and measuring the percentage of commitment by various sectors on an ongoing basis.

The detailed results can be viewed directly at the following link <http://bit.ly/covidsectordata>

### General announcements

---

Based on the recommendations of the Committee for the Follow-up of Preventive Measures and Procedures for Coronavirus No. 710 / AJAD on 10/30/2020, the Ministry of Interior and Municipalities issued Resolution No. 1358 on 11/1/2020 regarding the continued closure of some villages and towns due to the high number of infections. Corona virus in it. The decision stated the following:

- Determining the times of exit and entry to the streets and roads in all Lebanese regions covered and not covered by the closure decision
- The continued closure of bars, cabarets, and nightclubs, and the banning of public and private parties, social events and gatherings on the entire Lebanese territory, and permission for restaurants and cafes, provided that they do not exceed 50% of the absorption rate and adhere to health conditions (safe distance, not overcrowding)
- When necessary, citizens are obliged to wear a mask to cover the nose and mouth when traveling and to adhere to health conditions (safe distance, not overcrowding)
- It is exclusively for the Minister of Education and Higher Education to take the decision to open or close educational institutions and administrative units
- Determining the number of people traveling in public and private means of transport with the obligation to wear masks for the driver and passengers Other measures:
  - Full closure of the towns mentioned in the decision starting from 5:00 a.m. on Monday 11/2/2020 until 5:00 a.m. on Monday 9/11/2020
  - To suspend work in all official and private institutions located within the scope of these villages and towns, with the exception of institutions and departments of the Ministry of Education and Higher Education, according to what the Minister deems appropriate.
  - Coordination with the religious authorities in terms of closing places of worship and canceling religious events
- Excluding some sectors and employees from the decision, with the necessity to keep the job card in order to present it when necessary Assigning governors to:
  - Determine the municipal zone in the received towns Take the necessary measures to implement this decision and request the support of the General Directorate of Internal Security, when necessary
  - Emphasize on citizens the need to adhere to public safety procedures and to adhere to wearing a mask when traveling in case of necessity
  - Assigning the district attorneys to instruct the mayors to review the lists of positive cases on the IMPACT platform daily and coordinate with the judiciary doctor and the Lebanese Red Cross to take the appropriate decision
- Assigning the General Directorate of Internal Security Forces to strictly enforce this decision and suppress violations of public mobilization decisions, and to organize arrest records against violators.
